SUMMARY

Informatics student (Cyber Security concentration) and Software Engineer Intern at Kementerian PANRB. I mostly build web, mobile, and AI projects on my own, from planning to deployment. Open to part-time or remote roles.

EDUCATION

President University Cikarang, Indonesia
Bachelor of Informatics (S.Kom.), Cyber Security Concentration *Sep 2024 – Dec 2027 (expected)*

- GPA 3.23 / 4.00. Jababeka Scholarship recipient (Aug 2024 – present).

WORK EXPERIENCE

Kementerian PANRB Jakarta
Software Engineer Intern, Government Digital Transformation Division *Jul 2026 – Jan 2027 (expected)*

- Help develop and maintain internal web apps used to evaluate and monitor government digital transformation.
- Work on frontend and backend, database design, REST API integration, and testing and bug fixing on existing systems.

Freelance Software Developer Remote
Independent projects (web, mobile, AI) *Jan 2025 – Present*

- Build websites (React, Next.js), mobile apps (Flutter, Kotlin), and small AI tools for clients from my campus and school.
- Since Oct 2026, offering landing pages to small businesses in Cikarang that send orders straight to the owner's WhatsApp.

PROJECTS

PestGuard AI | *AI Open Innovation Challenge 2026, PT Kawan Lama Group* Apr – Jun 2026
Real-time warehouse pest detection with a custom-trained YOLO11 model. Sends WebSocket alerts in under 1 second, handles low-light footage with CLAHE, and has a Gemini-based RAG assistant. Selected project. [Python, FastAPI, YOLO11, React, Gemini]

SaringSini | *#JuaraVibeCoding 2026* May – Jul 2026
PWA that checks text, screenshots, and links for hoaxes with Gemini, then drafts polite replies in 4 regional languages for family group chats. Added rate limiting, CSP headers, and a non-root Docker build. [Node.js, Express, Gemini, Docker (Cloud Run ready)]

Sultan Arcade | *Personal project, live at sultan-arcade.pages.dev* Oct 2026 – Present
Ten browser mini games with weekly leaderboards. Five of them, including chess and 8-ball, can be played online with the server as referee. [JavaScript, Canvas, Cloudflare Workers, Supabase]

Naik Kelas | *AstraPay Hackathon 2026* Jun 2026
Explainable credit-scoring prototype that turns QRIS transaction history into a score (AstraScore) and tiered micro-loans for small merchants. Web app with 20 unit tests and 21 API checks, plus a Flutter companion app. [Next.js, TypeScript, Vitest, Flutter]

MiniBookLibrary | *Android app* Dec 2025 – Present
Offline-first book management app with reading progress, ISBN auto-fill (Google Books API, barcode scanner), and PDF/JSON export. 51 unit tests (JUnit 4, MockK, Turbine) run on GitHub Actions on every push. [Kotlin, MVVM, Room, Coroutines, Flow]

SRMAudit | *Security Risk Management mini project* Jun 2026 – Present
Web platform for running OCTAVE Allegro risk assessments step by step. Works in cloud mode (Supabase auth with row-level security) or fully offline (IndexedDB). CI runs typecheck, lint, tests, and build. [TypeScript, Vite, Supabase, Vitest]

PestGuard AI, SaringSini, and Naik Kelas were team entries. All projects built with AI coding tools. More at sultanzhalifunnas.pages.dev.

SKILLS

Programming: TypeScript, JavaScript, Python, Kotlin, Dart, Java, SQL
Web & Mobile: React, Next.js, Node.js, Express, FastAPI, Tailwind CSS, REST API, PWA, Android (MVVM, Room), Flutter
AI & Database: Gemini API, Claude API, YOLO11, OpenCV, RAG, PostgreSQL, MySQL, SQLite, Prisma, Supabase
Tools & Testing: Git, GitHub Actions, Docker, Cloudflare Workers, Linux, Vitest, Playwright, JUnit, MockK
Security: Vulnerability assessment, network security, risk assessment (OCTAVE Allegro)
Languages: Indonesian (native), English (professional working)

CERTIFICATIONS

Google: Cybersecurity Professional Certificate, IT Support Professional Certificate (Coursera), Gemini Certified Faculty and Student
IBM: Build an AI Agent, Intro to LLMs, Designing AI Solutions, Data Literacy, Sensemaking with Data, Git and GitHub
Dicoding & RevoU: SOLID Principles, Java, C, Haskell, Project Management, Intro to Software Engineering, Intro to Data Analytics

ORGANIZATIONS & ACTIVITIES

HACKSPHERE 2025, National 48-Hour Hackathon | *Event Committee, President University* Oct 2025

Kindness Community for Knowledge | *IT Support & Event Operations, Cikarang* 2024 – 2025
